SEND A CLEAR MESSAGE TO **STAY IN THE EU**

BOLD ACTION TO TACKLE CLIMATE BREAKDOWN

HELP **REPAIR OUR BROKEN POLITICAL SYSTEM**

SUPPORT A **FAIRER ECONOMY** FOR ALL

WEST MIDLANDS COUNTY & DISTRICT GREEN COUNCILLORS

This month's local election results show that more and more people in the West Midlands are voting Green.

They realise that a Green vote is the only credible choice if you think we should stay in the EU, take urgent action on the climate crisis and bring a fresh, new approach to British politics.

European Elections use a fairer, more proportional voting system. Vote Green and be a voice for change.

“ I BELIEVE PASSIONATELY THAT WE ARE BETTER OFF IN THE EU. ONLY BY WORKING TOGETHER CAN WE ADDRESS URGENT CHALLENGES LIKE CLIMATE BREAKDOWN. WE NEED CHANGE - AND GREENS OFFER SOMETHING DIFFERENT FROM THE 'BUSINESS AS USUAL' POLITICS OF OUR BROKEN POLITICAL SYSTEM. ”

Cllr Ellie Chowns, lead candidate, West Midlands Green Party Euro Elections

A STRONG GREEN VOICE FOR THE WEST MIDLANDS IN EUROPE

The Green Party is the leading pro-Remain party in the European Parliament. Support for the Green Party is growing all the time - your vote can help elect a Green MEP this time.

PROUDLY EUROPEAN

We're proud of Caroline Lucas' national leadership in the campaign for a People's Vote. We're proud of everything our Green MEPs have been doing to safeguard the rights of all EU and UK citizens.

STRONG ON CLIMATE

Climate breakdown is the biggest threat we face - we are the only party to treat the climate crisis as the absolute priority it is. We need rapid investment in renewables and a Green New Deal to create thousands of sustainable jobs across the West Midlands, without risking future generations.

A FRESH APPROACH

We do things differently. We reject the 'business as usual' Westminster politics that has led to the Brexit stalemate the social, environmental and economic problems we are facing today.

Dr Ellie Chowns (above) leads the list of Green Party candidates for the West Midlands in these European Elections.

Ellie is a Lecturer at the University of Birmingham, specialising in International Development.

She has spent 15 years working for international NGOs including VSO, Christian Aid and Concern Universal in the UK and Africa. She serves as a Green Party councillor on Herefordshire Council and was the Green parliamentary candidate for North Herefordshire at the 2017 General Election.

GREEN MEPs FROM ACROSS EUROPE HAVE HAD A MAJOR IMPACT ON CHANGING EUROPE FOR GOOD.

Existing Green MEPs have helped secure:

- More ambitious carbon reduction targets
- New measures to stop tax-dodging by corporations and the ultra-rich
- Protection for human rights and workers' rights
- A more sustainable finance industry investing in the green economy
